TOWN WARRANT

THE STATE OF NEW HAMPSHIRE

To the Inhabitants of East Kingston in the County of Rockingham in said State, qualified to vote in Town Affairs:

You are hereby notified to meet at Town Hall in said East Kingston on Tuesday, the tenth day of March, next at nine of the clock in the forenoon, to act upon the following subjects:

1. To choose all necessary Town Officers for the year ensuing.
2. To raise such sums of money as may be necessary to defray town charges for the ensuing year and make appropriations of the same.
3. To see if the Town will vote to authorize the Selectmen to hire money in anticipation of taxes.
4. To see if the Town will vote to raise and appropriate the sum of \$3,000.00 for the maintenance of the Fire Department, and any surplus not used for maintenance to be set aside for a Fire Truck Fund.
5. To see if the Town will vote to raise and appropriate the sum of \$250.00 for Forest Fire

Department to purchase needed equipment.

6. To see if the Town will vote to raise and appropriate the sum of \$282.48 against the State Appropriation of \$1,883.18 for Class V Road Assistance.

7. To see if the Town will vote to raise and appropriate the sum of \$150.00 to be used in conjunction with State and Federal Funds for the control of White Pine Blister Rust in woodlands.

8. To see if the Town will vote to raise and appropriate the sum of \$100.00 for the Portsmouth Mental Health Clinic.

9. To see if the Town will vote to authorize the Selectmen to accept George Street, so called, as a Town road upon completion of necessary surfacing.

10. To see if the Town will accept the reports of the Town Officers and Auditors as printed in the Town Reports.

11. To transact any business that may legally come before this meeting.

Given under our hands and seal, this Twentythird day of February, in the year of our Lord nineteen hundred and Seventy.

Activities of the Fire Department

The Fire Department burned:
15 acres of grass on request
2 Barns – Filled 2 swimming pools

We participated in 3 parades and a fire truck and equipment demonstration in Exeter during Fire Prevention Week.

We also held a demonstration of the fire truck at both schools during Fire Prevention Week.

Also we participated in 2 Mutual Aid Fire Drills at the Brentwood County Home.

We hold our firemen meetings the 1st Tuesday of every month at the fire house.

Have men in the fire house each day to check the equipment.

I want to thank all the residents of this town for their early calls for fire. As a result, we had a very good year. Once again the Fire Department phone number is 642-5266.

Respectfully submitted,

ROBERT M. BELCHER
Chief
East Kingston Fire Dept.

EAST KINGSTON

Report of the Superintendent of Schools Edward A. Adamo

The new school year began with a Union-wide faculty meeting at the Area Junior High School on Tuesday, September 2, 1969. Classes opened for instruction on Wednesday, September 3, 1969.

The East Kingston schools opened this year with 105 pupils, an increase of 20 pupils over the beginning of school a year ago. This represents a 12½ % increase compared with 6% a year ago. There are presently 31 East Kingston pupils in the Area Junior High School and 62 in the Area High School.

The problem of adequate school space continues to grow more acute despite the contractual agreement made with Brown's Academy Trustees to construct a modern classroom in the attic of the Academy. This additional room did solve our space problem for the current year 1969-70. However, it is now clear that still another room and teacher are needed for the school year 1970-71. The projected enrollment for Grades 3 and 4 combined is 45 pupils. This number is not only untenable for a teacher to provide quality instruction, but moreover, it violates the new minimum elementary school standard of not more than 30 pupils per class as adopted by the State Board in June 1969. Accordingly, a new room and new teacher will be required in each of the two years ahead, 1970-71 and 1971-72, before the town can rest in meeting its obligation to the children in its elementary schools Grades 1 - 6.

There were several changes in the teaching staff this year. Mr. Maurice Castonguay replaced Mr. White,

Mrs. Mary Kelley replaced Mrs. Currier as teacher-aide, and Mrs. Sally Bowen was employed as a new first grade teacher. The present staff with their grade assignments and current enrollments are listed below:

Mr. Maurice Castonguay, Principal

- Grades 5 & 6	27 pupils
Mrs. Helen Hubner, Grades 3 & 4	38 pupils
Mrs. Blanche Loch, Grade 2	23 pupils
Mrs. Sally Bowen, Grade 1	27 pupils
Total Pupils	115

Mrs. Mary Kelley, Teacher - Aide

Mrs. Eleanor Henry, Music

Mrs. Virginia Holder, Nurse

The new ranking system went into operation this year and the School Board adopted an official policy permitting the use of volunteer, part-time aides in the schools.

Mrs. Loch reports the Greater Cleveland Social Studies curriculum is being used at the Pound School for the first time this year. Comparison of two primitive cultures (Aborigines of Central Australia and Eskimos of Northern Alaska) with our own local 20th Century culture has been quite popular. In conjunction with these studies, Pound School children visited the local U.S. Post Office and the Fire Department. The lack of hot water and a drain plug continue to hamper the program at Pound School. Mrs. Loch expresses her appreciation to room mothers Mrs. William Baumner and Mrs. Richard Pelley for their assistance during the year.

Mr. Castonguay reports several interesting activities at Brown's Academy. The Fire Department

visit was very informative and enjoyed by pupils and teachers alike. The visiting nurse presented an important program on dental care for the children during her visit last Fall. Mr. Castonguay has been using the discovery method via several active projects to teach the scientific method. Such science processes as observation, measurement, classification, and generalization have been a central part of these projects. In addition, the 5th and 6th graders have been receiving some instruction in the French language. The new principal has embarked on a home visit plan which has taken him on visits to 15 different homes thus far to talk with parents. The staff at the Academy expressed its grateful appreciation to Mrs. Joslin for the many hours she has devoted to the school library.

Two key persons who are of direct assistance to the Superintendent in providing leadership and supervision of the schools in Union 16 are the Teacher Consultant and the new Business Administrator. Their comments follow:

The role of the Teacher Consultant continues to be one that encompasses many areas. His activities include: Observing and participating in classroom work; helping teachers and pupils with techniques, methods, materials, and other activities which affect the learning process; interpreting and using the findings of research; working with curriculum committees for future curriculum adoptions in our schools; encouraging pilot studies of promising new materials; appraising educational progress; and providing teachers with the latest information and ideas in multi-media techniques for classroom instruction.

Two major factors are affecting the learning processes in our schools today. The first is the concept that instruction is becoming more and more an individualized procedure; and, secondly, that multi-media techniques are taking an active role in the total instructional picture.

As Teacher Consultant, the above paragraph holds a major key to my work. We are living in the midst of a revolution in education, and curriculum is the most important battle line of that revolution. School curriculum in a democratic society is the result of a continuous interplay of ideas among individuals and groups of individuals who concern themselves with the future of society. We are using the curriculum study-committee technique in our schools. It is through this process that we have our present new modern math program, a changed social studies curriculum, a new parent report system, a transitional program for immature first graders, our present testing program, and we are currently completing an extensive study in science education, Grades One to Twelve.

“Involvement” is the key word. It does not just happen. It has been planned. Ideas are encouraged in committee work. The adoption and implementation of the new program as well as evaluation still remains a major function of the Teacher Consultant’s role.

This new program is the result of “best judgments” of the committee members based on the evidence (data, opinions, research, study, pilot program) available at the time of the curriculum decision. The next step requires that the total staff be informed, and usually the Teacher Consultant becomes involved with an inservice program for the teachers before the new ideas come forth in the form of instruction to children in the classroom. Even after

these decisions and implementations, the process continues.

This curriculum function requires active involvement by the Teacher Consultant. He has a key role to play all along the process of curriculum change and implementation. Therefore, I felt an explanation of this area of school work was important enough to share with you in this report. I will continue to spend as much time as possible working with curriculum committees; reviewing research; studying data; carrying out pilot studies; and providing teachers with ideas and materials for implementation of new programs in the schools of this Union.

Frederick B. King

I should like to say at the outset that I am very pleased to have been selected as your first Business Administrator in Union No. 16.

These first months have been taken with gradually moving into succeeding areas for which I am responsible in order to gain systematically a clear insight into the many and varied facets of the position. Dr. Adamo and Mrs. Collishaw have assisted me greatly in these first months and I give much credit to them for enabling me to "settle in" to the position with relative ease.

As Business Administrator my duties involve basically the following: accounting, preparation of budgets, purchasing, supervision of repairs and maintenance of school facilities, supervision of pupil transportation and lending assistance to the Supervisory Union and the School Districts comprising the Union in the administration of their business and financial affairs. I strongly feel that together with all

the foregoing is the very critical responsibility to see that our school system is operated in the most efficient and economical manner possible. With the increasing demands being placed on property owners in the form of rising taxes, it becomes more essential than ever to get true value for every dollar spent.

One obvious area in which efficiency is demanded is that of purchasing. With this in mind I intend to involve the entire Union in as much group purchasing as is practical. Much of what we use in our schools can be readily standardized and purchased jointly. This applies to supplies and furniture alike.

Let me briefly cite an example. Classroom furniture is something which is required by all schools at one time or another. One district's requirements for classroom furniture would constitute a relatively small order and consequently would not provide that district with any degree of purchasing power. However, a combination of two or more such orders could negate the above disadvantage and place those districts collectively in a much more favorable position than any one individually would enjoy. I feel that this kind of thinking among all the districts can work to everyone's advantage.

Another area which can be critical to efficient management is that of maintenance of plant. With the

assistance of the building principals, I hope to establish a planned systematic maintenance program for all of our buildings. Hopefully this will allow School Boards to more accurately project their budgetary requirements in this area.

In summary, with the steady increase in all costs it is imperative that each school district continue to seek new methods of holding or reducing operating

costs. One such way is through open communication and cooperation among individual districts in the Supervisory Union.

I look forward to serving your school system in the months and years ahead. Daniel C. Durgin

The tuition rates for 1970-71, as approved by the State Department of Education and announced by the Exeter School Board, are:

Estimated Per Pupil Cost for 1969-70	
Senior High School	\$779
Rental Charge	37
Total 1970-71 High School Tuition	\$816

Estimated Per Pupil Cost for 1969-70	
Junior High School	712
Rental Charge	40
Total 1970-71 Junior High Tuition	\$752

These estimated per pupil costs for 1969-70 are the basis for setting tuition rates for 1970-71; a rental charge is added to make up the total tuition. The new tuition rates for 1970-71 compare with the state estimated average per pupil costs of \$753 per High School pupil and \$653 per Junior High pupil exclusive of rental charges. This will mark the first occasion that Exeter tuition rates have exceeded the state average.

SCHOOL HEALTH SERVICES

January, 1970

To The Superintendent of Schools:

School Health Services in our towns have included two new programs this year. Along with our usual schedules of vision and hearing screening and referrals; physical examinations; dental hygiene and education; free summer dental program supported by the State Department, Division of Dental Public Health; Immunizations; Tuberculin testing for Grades 1 and 7, plus Staff; and the ever important Health Education, we have added a new service for age 4 and 5 pre-school children. This program embraces a double purpose of early detection of Lazy-eye and significant developmental lags, and was carried out in each town last June following the closing of schools. Although attendance was not as high as we hoped, we felt that the program was well worthwhile. Over 54 children in all attended and of these, 7 were appropriately referred for further evaluation and follow-up. Had these children not been discovered until a few months before entering Grade 1, their early school experience might very well prove less successful. With adjustment of dates and time we hope for better attendance at the next screening.

Another program which has closely involved the attention of your School Nurse along with Sister Marie Timothy of St. Michael's school, Exeter, and members of the appointed Planning Committee, is an in-service training course for Professional Personnel entitled, "Recognition and Management of Children with Learning Disabilities within the Classroom". Over 220 educators from 40 towns are registered in this course and outstanding lecturers have contributed up to date, interesting, and factual material each week. Through

education only can we best expect profitable returns from our efforts to establish improved understanding and management of special children in the classroom. If each member registered in this seminar gains a little better understanding of the children who are perplexing in the classroom, and acquires more effective methods of helping these children, we may rightly feel that its benefits, by touching the lives and problems of innumerable children throughout our schools, can be realized. The preparation and organization of this program has involved many, many hours of several peoples' time and we are indebted to all who have contributed toward its promising results.

In December there was a spark of hope in the air for the possibility of a part time assistant in this School Health Service. The spark, however, failed to develop into reality. Now covering 5 towns and 6 schools with an ever increasing enrollment creating a load far beyond the State recommendation, I found this decision something less than encouraging. While I am aware of the many demands and limited funds I do nevertheless, hope that another year new consideration can be given this need and money allocated for the purpose.

Many hours have been contributed by School Health Volunteers and I cannot commend them enough for their efficient and most valuable help in the many ways they have served this Department.

Continued support of the School Board (s), Superintendent of Schools, the Principals and members of the Staff is greatly appreciated and has been most helpful to me in carrying out the School Health Program.

Respectfully submitted,
(signed) Virginia D. Holder
